Gas bottle cage

Container for 1, 2, 4, and 6 technical gas cylinders

We present our comprehensive line of gas cylinder storage containers, a versatile solution for the safe storage and transport of technical gas cylinders. Available in various capacities, including options for 1, 2, 4, and 6 cylinders, these containers are designed to meet the specific needs of cylinder management in industrial settings. Key Features: Capacity Versatility: Our range offers various options, allowing you to select the most suitable model for your specific storage needs, with capacities from 1 to 6 cylinders and different cylinder diameter sizes. Robust Structure: The containers are built with a sturdy structure to ensure durability and strength in daily use, providing a reliable and safe solution. The container can be lifted using a chain through the hook welded at the top or can be easily moved with a forklift by inserting the forks at the base. This product is constructed and tested according to UNI EN ISO 12100, UNI EN 10027-1, and UNI EN 10204 standards and comes with the appropriate metal ID plate and conformity certificate. All our products are covered by a one-year warranty (European Directive).
